

Iditarod Trail Mix Fractions

Write the fraction of each item in your trail mix, then see if you can compute the decimal and percentage equivalent of each item in your mix. You may, or may not, have some of the following in your mix. If you do not, then you have "zero" over the total number of items, and therefore, 0% of that item.

What is the total number of items in your mix? _____

	Fraction	Decimal	Percentage
 Almonds	_____	_____	_____%
 Cashews	_____	_____	_____%
 M & M's	_____	_____	_____%
 Peanuts	_____	_____	_____%
 Raisins	_____	_____	_____%

What can you say about the data you have collected?
