

Iditarod Problem of the Day

1. There are 111 mushers signed up for Iditarod 2008. 25 of them are women. How many are men?
2. Of the men signed up to mush in the Iditarod, 54 are from Alaska and 19 are from other U.S. states. How many men are from other countries?
3. Two mushers have withdrawn from the race; how many were signed up before they withdrew?
4. 72 of the mushers are veterans, 39 of them are rookies. Which one of these numbers is closer to $\frac{1}{2}$ of the total mushers signed up?
5. About what fraction of the mushers signed up are women?
